DIALOG IM DUNKELN

Schottenstift, Freyung 6, 1010 Vienna
www.imdunkeln.at

Dialogue in the Dark is an exhibition where in groups of 8, one gets a tour through completely dark rooms, guided by blind people. In this exhibition you encounter everyday situations, which you will experience as a blind person would. One simply has to experience that for oneself in order to understand, how much we rely on our senses. Much more than the “dining in the dark”-restaurants one can experience elsewhere.
